Positief Opvoeden

Positive Parenting Program

Positive Parenting is a training program for parents with children between 1–12 years old. Positive Parenting helps you to reduce the stress of parenting and makes parenting more rewarding and enjoyable. Engaging in the program will give you an opportunity to meet other parents and to share some of your experiences and ideas about being a parent.

What can you learn?

How to develop a positive relationship with your child, to increase desirable behaviour, to teach your child new skills and how to manage misbehaviour?
